

January 2016

Transactions for electronic tags

If livestock are identified with **electronic** tags, individual animal details can be recorded when transactions are submitted to the database. Mob-based transactions are submitted for sheep or goats with **visual** tags.

Transactions for electronic tags (RFIDs)	Account types with this transaction
Carcase feedback	Abattoir
Device status	16 account types
Killed animals	Abattoir
Killed animals with PIC of consignment	Abattoir
Livestock moved from my current holdings	Agent
Livestock moved into saleyard	Saleyard
Livestock moved out of saleyard	Saleyard
Livestock moved (non-written authority)	Agent, Pounds, SA, SDA (All), Third party, Transporter
Livestock moved off my property	10 account types
Livestock moved onto my property	10 account types
Livestock that have died on property	Feedlot, Producer, Third party
New tags	Tag manufacturer
PIC reconciliation	Feedlot, Producer, SA, Third party
Recovered device upload	Tag manufacturer
Sighted livestock	Pound, sporting event, SA, SDA/SDAM, Transit centre
Transfer correction	14 account types

Submit transactions for electronic tags (RFIDs)

- 1 Log into the database at www.nlis.com.au.
- 2 Choose a **livestock type** and click **Go**.
- 3 Choose a **transaction** and click **Go**.

Which livestock do you want to work with?

I want to work with

What do you want to do today?

I want to

Notify the database of:

- Device status
- Livestock moved off my property
- Livestock moved onto my property
- Livestock that have died on property
- PIC reconciliation
- Replaced tags
- Transfer correction

Police, Pounds and SDAs do not see this field as it applies to 'PIC-based' accounts.

This is the home page for a cattle producer. If you work with more than one type of livestock, when you login, **choose a type** for that session. Your home page menu will then show transactions and reports for that livestock type only.
